### ABOUT ME:

I'm a Jr Full-stack developer and also a public accountant student. I'm a self-taught enthusiast of technology and web development, having used various platforms to improve my knowledge about software technologies such as: JavaScript | HTML5 | CSS3 | React | Redux | Express | PostgreSQL | Sequelize | SQL | Node JS | GitHub. I have finished the +800hs SoyHenry bootcamp currently working on both an individual and a group project. I would love to grow on the front-end side of development although I'm capable of working on back-end as well.

### ESPECIALIZACIÓN

- React
- React Native
- Redux
- JavaScript
- Node JS
- Express
- SQL
- Sequelize
- FireBase.
- Styled Components
- HTML
- CSS
- Bootstrap
- Less

### IT EXPERIENCE

#### FULL STACK - "APP PI DOGS"

*HENRY BOOTCAMP*

Project's Objectives:

- Build an App using React, Redux, Node JS and Sequelize.
- Learn and practice the GIT workflow.

#### FRONT-END - "WEATHER APP"

*HENRY BOOTCAMP*

Project's Objectives:

- Build a SPA (Single Page Application) using an API (Open Weather) to gather the data.
- Technologies used: React and Redux.

#### FULL STACK - "RAMFLIX"

*INDIVIDUAL PROJECT*

Project's Objectives:

- Create a SPA, replicating the official Netflix page.
- Build an App using React, Redux and FireBase.
